

Final Assignment Proposal : Global Terrorism Database(GTD)

RUXIN DENG/CAROL

Description:

The Global Terrorism Database (GTD) is an open-source database including information on terrorist events around the world from 1970 through 2016. I would like to use those variables for statistical analysis and explore the terrorist events around the world, find out some interesting things like casualties in Global Terrorist Attacks, the most affected countries, the most notorious groups, their motives,etc.

DATASET : globalterrorismdb_0617dist.csv

Python libraries:

- pandas
- numpy
- matplotlib
- seaborn
- plotly
