Final Assignment Proposal
Tuyang Liu

TOPIC:
1.6 million accidents and 16 years of traffic flow. It's a huge picture of a country undergoing change.What are the best ways to map and analyse how a nation changes over 16 years?

DATA SOURCE:
https://www.dft.gov.uk/traffic-counts/download.php

GOALS & QUESTIONS:
-How has changing traffic flow impacted accidents?
-Can we predict accident rates over time?
-What might improve accident rates?
-North Vs. South, East Vs. West
-Identify infrastructure needs, failings and successes
-Differences between England, Scotland, and Wales

LIBERARY:
-Matplotlib
-Pandas
-Numpy
-Basemap
